About Me

Hi, I am Muhammad Zubair Ahmad, who is a Software Engineer graduated from Abasyn University Peshawar. I am experienced in developing creative websites and web applications combining both business and user needs. I have worked on several projects such as eCommerce websites, blog website, web applications, and more. I am excited to elaborate on my extensive experience, skills, and qualifications for the position of Software Engineer.

Work Experience

Front-End Developer 2021 - ongoing

As a Front-End Developer, I've had the privilege of collaborating with numerous clients on diverse projects, all of which were delivered successfully with 100% client satisfaction. Leveraging technologies such as HTML5, JavaScript ES6, React.js, and Tailwind CSS, I've consistently crafted compelling solutions that not only meet but exceed expectations. I'm eager to continue honing my skills and collaborating with more professionals in the field.

WordPress Developer 2021 - ongoing

I have utilized WordPress to successfully complete multiple projects, including the following:

- E-commerce shop
- All Management system
- Single-page Website
- Business Website
- Services Website
- Portfolio Website
- Personal Website

I utilized several theme builders, including:

- Elementor pro
- Divi
- Spectra
- Gutenberg

Works

<https://handmadesole.shop/>
<https://gemzain.com/>
<https://socialincrease.us/>

Debugging

- 500 Internal server error
- plugin conflicts
- 404 error
- permalink error
